

Hestia

Spirit of a smarter home

Coordinate shared responsibilities, manage groceries and supplies, and keep household notes connected to tasks.

01 / Responsibilities Review evidence, approve changes, accept personally, and report outcomes.	02 / Supplies Correct receipt items, review purchase patterns, and confirm shopping needs.	03 / Shared notes Share instructions, attach notes to tasks, and create new responsibilities.
---	--	---

Prepared by Team Hestia | Team 12 | INFO 490

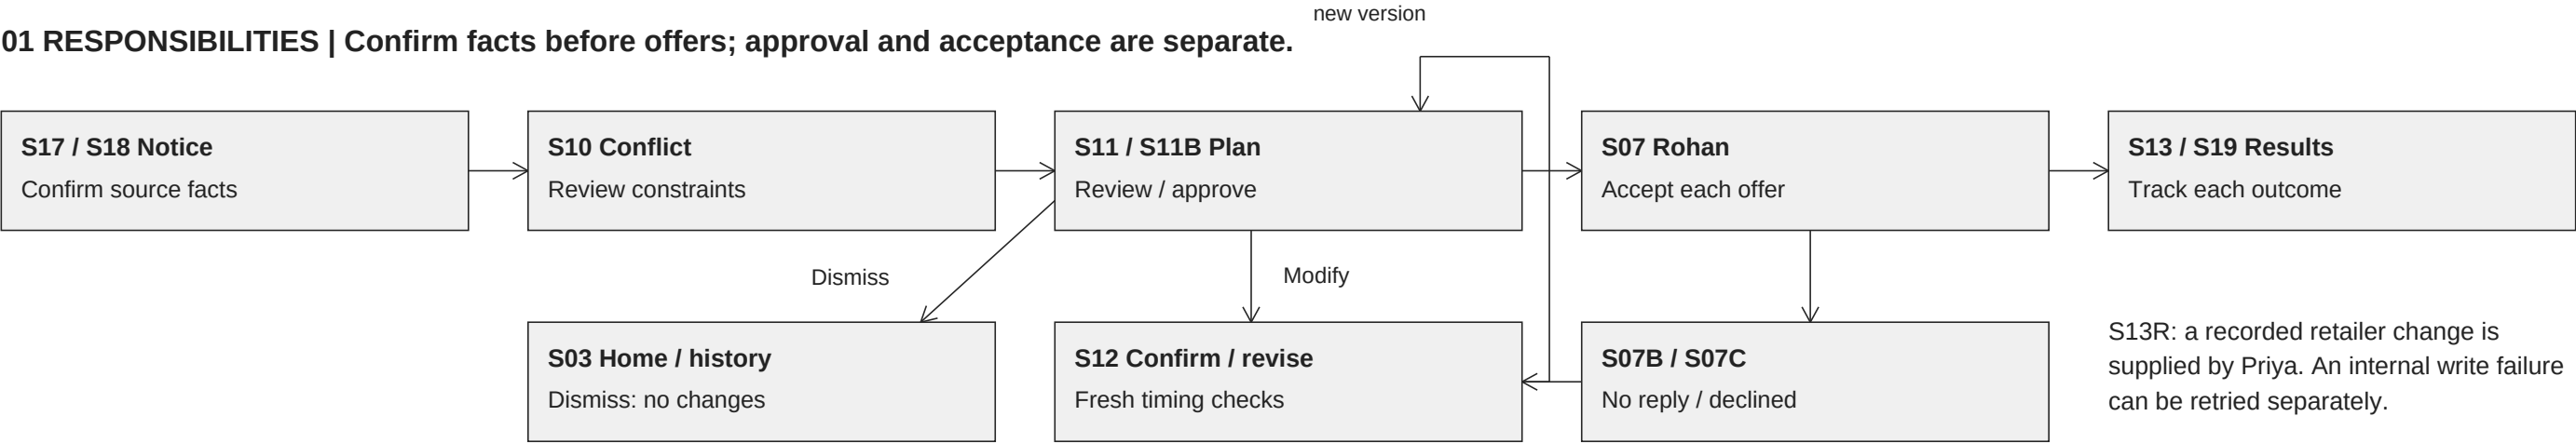

Semester scope: internal calendar, uploaded or forwarded sources, user-confirmed facts, and shared tasks. Retailer changes happen outside Hestia and are recorded by a user. Live calendar synchronization and automated booking are future extensions.

AI / tool disclosure: OpenAI Codex (GPT-6) assisted with structure, interaction content, and revisions. ReportLab 4.4.9 generated revised pages; pypdf 6.10.0 assembled this PDF. This submission presents low-fidelity designs; no implemented application is claimed.

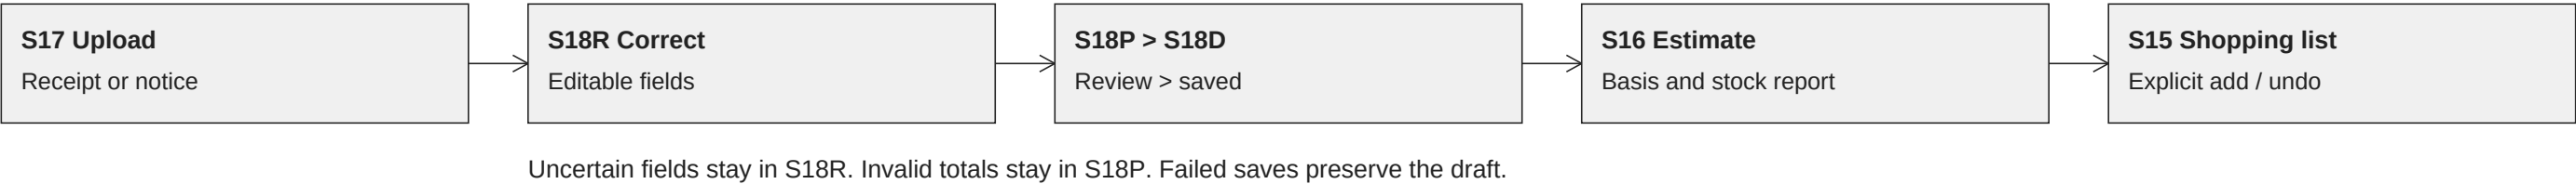

Screenflow | Three household journeys

Entry: S01 account access > S02 setup > S03 Home. Existing members go directly to Home.

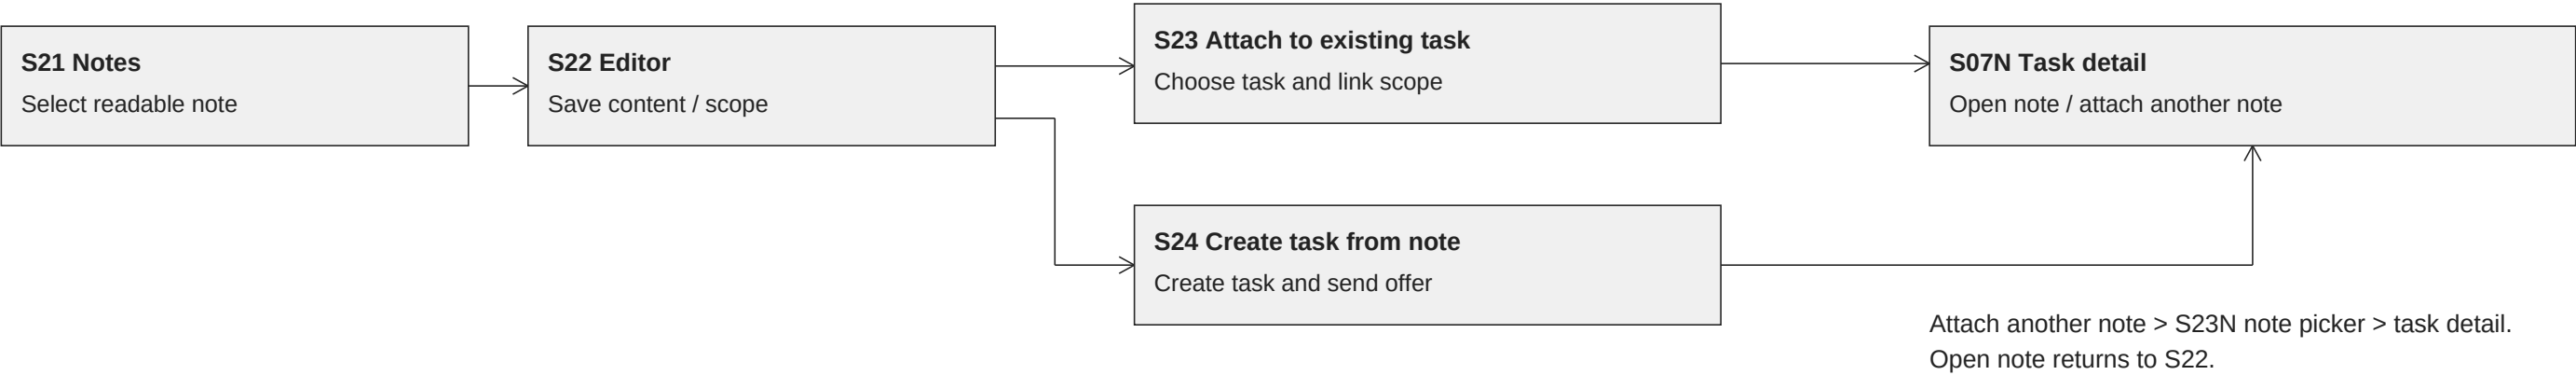

01 RESPONSIBILITIES | Confirm facts before offers; approval and acceptance are separate.

02 SUPPLIES | Receipt review saves purchases; it does not establish current stock.

03 NOTES | Attaching and creating are alternative actions from a saved note.

Tasks also opens S25 Parcels and returns. Cleaning and maintenance reuse the recurring task form. S20 controls permissions; a task link never grants note access automatically.

Welcome to Hestia

Hestia: Spirit of a smarter home

Sign in

Create household

Forgot password?

Error: Check your email and password.

INTENDED INTERACTIONS

1. Sign in opens S03, or S02 when no household exists.

2. Show toggles password visibility. Preserve email on error.

3. Password reset displays a neutral confirmation.

PAGE PURPOSE / STATE

A calm entry point. Credentials are verified before household access.

S02 | Household setup

Household name

Our household

Timezone

America/Chicago [v]

Your display name

Priya

Invite adult members (optional)

Add email addresses

Start with your household information

Use the internal Hestia calendar. Add events and availability manually, or review a notice.
Invite adults with an explicit role. A dependent profile can be managed by a guardian without a child account.
External calendar connections are a future extension.

Join with invitation

Create household

INTENDED INTERACTIONS

- 1. Account creation or sign-in completes before setup.
- 2. Validate household name, timezone, invitation role, and invitation expiry.
- 3. Create opens S03; a returning member goes directly to their existing household.

PAGE PURPOSE / STATE

Create a household with adult collaborators. Priya and Rohan have accounts; Aarav is a dependent managed by Priya. No external calendar connection is needed.

One decision needs your attention

Soccer pickup time and responsibility need confirmation.

Review conflict

Today / commitments

Priya: meeting 3-5 PM | Rohan: dentist 4-4:30 PM
Aarav: on-site care > soccer 4:30 PM

Open calendar

Supplies / one estimate to review

Detergent: timing estimate due for review.
Reported stock: unknown.

Review supplies

Tasks / next responsibility

Kitchen reset: Priya accepted; not started.
Soccer pickup: no offer until time confirmed.

Open tasks

Notes / recently edited

Cleaning instructions - edited by Priya at 9 AM.
Linked to weekly Kitchen reset.

Open shared notes

INTENDED INTERACTIONS

1. Review conflict opens evidence in S10.
2. Supplies opens S16; Notes opens S21.
3. One schedule summary replaces duplicate family/calendar dashboard cards.

PAGE PURPOSE / STATE

Balanced overview of the three journeys. Empty cards offer a focused first action.

< Previous day

Next day >

Members: Everyone [v]

Member	Time	Commitment / source
Priya	3:00-5:00 PM	Work meeting; manually recorded
Rohan	4:00-4:30 PM	Dentist; estimated 20 minutes to field
Aarav / dependent	3:30-4:30 PM	Supervised care at sports field; Priya confirmed
Aarav / dependent	4:30 PM start	Soccer; end and pickup not confirmed
Rohan	5:00-5:20 PM	Retailer arrival window reported by Priya; grocery task accepted

Review soccer details

! Pickup has no confirmed time or responsible adult.

Add event

INTENDED INTERACTIONS

1. Navigate dates, filter members, and add events to the internal Hestia calendar.

2. Select the soccer event to open S05. Unknown pickup time remains visible.

3. External bookings appear only as attributed user reports; Hestia does not synchronize them.

PAGE PURPOSE / STATE

Compare shared commitments. Aarav is already at supervised care at the venue. Arrival is covered; pickup still needs confirmation.

Title

Aarav soccer

Participant

Aarav - dependent child

Event start

Sep 7, 4:30 PM

Event end time

Unknown - confirm with organizer

Pickup time

Unknown - confirm separately

Pickup responsibility

Unassigned - no offer yet

Arrival / source

Already at Community sports field in supervised after-school care from 3:30 PM.
Priya confirmed arrangement. Notice confirms start only: prior 4:00 PM > 4:30 PM.

Cancel

Save and check conflicts

INTENDED INTERACTIONS

1. Event end and pickup are separate fields; neither is inferred from start.

2. Save checks conflicts. Recurring edits ask This event or Future events.

3. Do not create an actionable offer while pickup time is unknown.

PAGE PURPOSE / STATE

Explicit arrival arrangement closes the drop-off gap. Missing timing is a warning, not an accepted responsibility.

Tasks and responsibilities

New task

Member: Everyone [v] Responsibility: All [v] Work: Active [v]

Task	Responsible member	Responsibility	Work progress / due
Kitchen reset	Priya	Accepted	Not started / today 8 PM; weekly
Check water-filter cartridge	Rohan	Offered	Not started / Sep 12; monthly
Math homework	Aarav / Priya guardian	Guardian-managed	In progress / today 7 PM
Soccer pickup	Unassigned	Unassigned	Not started / timing needs review
Grocery pickup / 5 PM	Rohan	Accepted	Not started / proposed change under review
Return desk organizer	Priya	Accepted	Not started / Sep 11, 5 PM

Open Kitchen reset

Open parcel / return

INTENDED INTERACTIONS

1. Select a row for detail. Kitchen reset opens S07N; the return opens S25.

2. Cleaning and maintenance use the same recurrence, due date, owner, and completion form.

3. Responsibility and work progress are separate. Needs review is a warning, not progress.

PAGE PURPOSE / STATE

Manage routine and exceptional household work together. Homework is guardian-managed. Each recurring occurrence has its own completion report.

Soccer pickup | Offered | Not started

Confirmed pickup: 5:30 PM at the sports field. Event ends at 5:20 PM.
Priya confirmed the organizer times. Aarav is already on site.
Acceptance commits you to this pickup; it does not report it complete.

Accept soccer offerDecline soccer offer

Grocery time change | Separate offer

Current accepted task and reported booking: 5 PM. Proposed replacement: 6:30 PM.
Agreeing means you can do 6:30 if Priya obtains retailer confirmation.
Until then, the new time stays tentative and the current booking remains visible.

Agree subject to booking confirmationDecline grocery change

Back to tasks

Completion [unavailable]

INTENDED INTERACTIONS

- 1. Only Rohan sees these controls for his offers. Each response identifies the task and plan v2.
- 2. The grocery response is conditional on the retailer confirming the desired slot. The 5 PM booking remains current.
- 3. A decline stops dependent plan changes and returns the unresolved work to review. Completion is reported later.

PAGE PURPOSE / STATE

This state follows S12 and approval in S11B. Priya sees Waiting for Rohan. Rohan responds personally to each offer.

Our household [v]

History

Priya [v]

! Needs review: pickup time and owner are missing

Start: 4:30 PM. End: unknown. Pickup: unknown.
Aarav is already at the field in supervised care; arrival is covered.

Evidence / availability

Priya: meeting until 5 PM.
Rohan: dentist ends 4:30 PM.
20 min travel > earliest arrival 4:50 PM.
Pickup is not the same as practice start.

Grocery constraint to review

5 PM booking: arrival window 5:00-5:20.
Allow 20 min collection + 30 min to field.
Latest arrival + collection + travel = 6:10.
A 5:30 soccer pickup would be at risk.

Review calendar

See suggested plan

INTENDED INTERACTIONS

1. Evidence links to the notice, calendar and illustrative route/retailer assumptions.

2. Confirm pickup in S12 before approving or sending an offer.

3. If a required pickup is before 4:50 PM, select another feasible arrangement.

PAGE PURPOSE / STATE

The 5 PM grocery window cannot reliably precede a 5:30 pickup, even though soccer begins earlier. Timing assumptions require review.

INFO 490 | Team Hestia

Family

Groceries & supplies

Notes

Hestia AI

Settings

Sign out

Draft v1 | Confirm facts first

Proposed soccer pickup: 5:30 PM. This is an illustrative candidate, not a confirmed event fact.
Event end and pickup time must be checked with the organizer.

Proposed coordination

Offer soccer pickup to Rohan after checking availability and travel.
Suggest moving grocery pickup from 5 PM to 6:30 PM. A user must arrange this outside Hestia.
The existing retailer reservation remains current until a user records confirmation.

Modify / confirm

Dismiss

Approve [unavailable]

INTENDED INTERACTIONS

1. Modify / confirm opens S12. Dismiss records the decision without changing any commitment.
2. Approval remains unavailable until event timing and travel assumptions are confirmed.
3. The ready-for-approval state is shown separately in S11B.

PAGE PURPOSE / STATE

Draft v1 is the only state on this screen. Nothing has changed; no actionable offer has been sent.

INFO 490 | Team Hestia | Team 12

Rohan [v]

Desired retailer arrival slot

6:30 PM - availability reported; not booked

Feasibility | Illustrative values reviewed by Priya

Dentist 4:30 + 20 minutes travel = 4:50; before 5:30 pickup.
Current grocery window 5:00-5:20 + 20 minutes collection + 30 minutes travel = 5:50-6:10.
After soccer: 5:30 + 10 minutes handoff + 30 minutes to store = 6:10; 20-minute buffer.
Confirmed by Priya at 2:05 PM: organizer times, route durations, and reported slot availability.

Cancel

Save and review new version

INTENDED INTERACTIONS

1. Record who confirmed end/pickup and when; keep the organizer evidence with the event.

2. Check each travel leg and duration. Store-slot availability is a user report, not a reservation.

3. Save returns to S11B with a fresh version; this screen sends no offers.

PAGE PURPOSE / STATE

The proposed sequence fits the reviewed times. Hestia uses its internal calendar. A user must separately arrange any external booking change.

INFO 490 | Team Hestia | Team 12

Plan v2 | Timing confirmed

Event ends 5:20 PM. Pickup is 5:30 PM. Aarav is already at the field.
Priya confirmed the organizer facts and the travel assumptions at 2:05 PM.

Proposed change	What approval authorizes	What stays pending
Soccer pickup	Send Rohan the confirmed 5:30 offer	Rohan's personal response
Grocery pickup	Offer Rohan a proposed 6:30 replacement	External booking remains 5 PM
Household records	After responses, save accepted / tentative states	Priya records external confirmation

If a proposed change fails, show the pending item and request a revised plan. No booking is changed by Hestia.

Modify plan

Dismiss

Approve v2 and send offers

INTENDED INTERACTIONS

1. Approve this exact version to send two distinct offers to Rohan.
2. Approval is not Rohan's acceptance. It does not alter a retailer reservation.
3. Material changes return through S12 and require renewed approval and affected responses.

PAGE PURPOSE / STATE

Only reviewed v2 is shown. Priya authorizes specific household actions; Rohan still decides whether to accept each responsibility.

INFO 490 | Team Hestia | Team 12

Priya approved v2 | Rohan responded to both offers

Item	Current result	Next action
Soccer responsibility	Accepted by Rohan at 2:08 PM	Physical pickup still not started
Grocery-time agreement	Rohan agreed at 2:09 PM, subject to booking	5 PM booking current; 6:30 tentative
Task records	Saved at 2:10 PM	No repeat write needed
Internal Hestia calendar	Save failed at 2:10 PM	Retry only this internal write
Retailer booking report	Awaiting Priya's confirmation	Arrange outside Hestia; record in S13R
Physical work	Both pickups not started	Rohan reports each outcome later

Retry internal calendar

Record retailer confirmation

View history

INTENDED INTERACTIONS

- 1. After both replies, record the accepted soccer task and the conditional grocery-time agreement.
- 2. Retry only the failed internal calendar write; keep successful records and responses.
- 3. Priya can record retailer confirmation independently. New external facts trigger feasibility checks.

PAGE PURPOSE / STATE

A failed internal write does not block a user from arranging a booking. The 6:30 grocery time remains tentative until external confirmation is recorded.

Shared shopping list

Upload receipt

Item	Quantity	Origin
Milk	1 carton	Added by Priya
Bread	1 loaf	Added by Rohan
Laundry detergent	1 bottle	Added by Priya after S16 review

Added to list / confirmation

Laundry detergent - 1 bottle added. [Undo]

Basis saved with entry: estimated replenishment around Sep 7; reported stock unknown.

This did not place an order, update stock or reserve a pickup.

Add item

Review supply detail

View saved purchases

INTENDED INTERACTIONS

1. This is the supplies journey outcome after Add to shopping list in S16.

2. Existing equivalent entry prompts Merge quantities or Keep separate. Undo removes this add.

3. Check off shopping only when acquired; stock reporting remains a separate action.

PAGE PURPOSE / STATE

Groceries is the list; supplies provide reported observations and estimates. Order/reservation status stays separate.

Hestia

Our household [v]

History

Priya [v]

Home

Calendar

Reported stock / human observation

Current quantity: Unknown
Last report: 0.25 bottle, Aug 10 by Priya
Stale report; not a current measurement.
[Enter quantity] [Unit: bottle]

Save new stock report

Suggested shopping action

Consider 1 bottle if your household needs it.
Quantity uses your target purchase size.
Check the cupboard before deciding.

Dismiss estimate

Estimated replenishment timing

Around Sep 7 (review window Sep 4-10).
Low confidence; this is not stock on hand.
Basis: 1 bottle purchased Aug 10; prior 1-bottle purchases Jul 13 and Jun 15.
Median interval: 28 days (2 intervals).
Method: last purchase + median interval.
Purchase history does not prove consumption.

View purchases / basis

Add 1 bottle to shopping list

INTENDED INTERACTIONS

1. Saving purchases in S18P recalculates timing only; it never increments reported stock.

2. User confirms the quantity before adding. Unknown and zero remain different.

3. Insufficient comparable purchases show No estimate yet; editable stock remains available.

PAGE PURPOSE / STATE

A forecast is labeled, dated and explainable. The old stock report remains attributed and visibly stale.

Back to groceries and supplies

INTENDED INTERACTIONS

1. The receipt is saved once. Reopening it shows this record; later edits retain correction history.

2. Review replenishment opens S16. Adding a shopping item still requires an explicit action there.

3. Purchase summaries cover only confirmed receipts in Hestia, not all household spending.

PAGE PURPOSE / STATE

A separate success screen confirms what changed. Purchase history supports estimates; reported stock remains unknown until a person updates it.

Illustrative recovery and later completion

Time / actor	Event	Result
2:06 / Priya	Approved plan v2	Exact proposed effects recorded
2:08 / Rohan	Accepted soccer offer	5:30 pickup responsibility accepted
2:09 / Rohan	Agreed to revised grocery time	Conditional on retailer confirmation
2:10 / Hestia	Saved tasks; calendar save failed	Soccer accepted; grocery 6:30 tentative
2:12 / Hestia	Retried internal calendar save	Succeeded; no task writes repeated
2:13 / Priya	Recorded retailer confirmation	6:30 replaced 5 PM; screenshot / R-630
5:40 / Rohan	Reported soccer pickup complete	Completion attributed to Rohan
6:50 / Rohan	Reported groceries collected	Completion attributed to Rohan

INTENDED INTERACTIONS

1. Expand an entry for the plan version, actor, evidence, and before/after values.

2. Internal retries do not repeat successful writes. External confirmations identify the reporting user.

3. Physical completion is a user report; it is never described as independent verification.

PAGE PURPOSE / STATE

This later state follows S13 and S13R. Approval, personal responses, internal saves, reported retailer confirmation, and completion remain distinct.

Action	Rule / condition	Scope	Control
Change shared calendar	Ask for plan approval	Internal Hestia events	Edit
Offer responsibility	Approval + personal response	Only named adult accepts	Edit
Unanswered-offer reminder	Opt in; once before cutoff	Offered tasks; expiry -> review	Edit
Accepted-task reminder	Separate opt in; 30 min before due	Accepted, incomplete tasks	Edit
Add supply suggestion	Ask every time	Shopping list only	Edit
Share a linked note	Owner/editor confirms readers	Link never grants access	Edit
Record booking confirmation	Authorized adult submits evidence	User report; no retailer API	Edit

Cancel

Review rule changes

INTENDED INTERACTIONS

- 1. Edit opens a rule form with scope and conditions. Review changes previews before/after values.
- 2. Recipients opt into reminders with quiet hours and rate limits. Ordinary members see read-only rules.
- 3. Revocation blocks future pending actions without rewriting completed history.

PAGE PURPOSE / STATE

Controls govern internal household actions. External retailer actions occur outside Hestia; their confirmations can be recorded by authorized adults.

Notes

New note

Search notes... Sharing: visible to me [v] Linked task: all [v]

Title	Sharing	Last editor	Linked tasks
Cleaning instructions	Priya + Rohan	Priya / today 9 AM	Kitchen reset (weekly)
Weekly meal ideas	Household	Rohan / yesterday	Meal planning
Gift ideas	Private to Priya	Priya / Sep 5	None

Open Cleaning instructions

No notes? Create a note; choose who can read it before sharing.

INTENDED INTERACTIONS

1. Notes is persistent navigation throughout the application.

2. Search returns only readable notes; open Cleaning instructions in S22.

3. Linked-task filters and last editor help household members find current guidance.

PAGE PURPOSE / STATE

Notes remain reusable content. Completing a linked task does not delete the note.

Title

Cleaning instructions

Content

Wipe counters with the mild cleaner. Empty the sink strainer.
Use a separate cloth for the floor. Refill detergent only after checking the bottle.

Sharing scope

Selected adults: Priya + Rohan [Edit]

Last editor

Priya - Sep 7, 9:00 AM

Linked tasks: Kitchen reset (weekly) [Open] [Unlink]

Saved version 3 | Rohan can read this note. Priya can edit.

Save note

Attach to task

Create task from note

Cancel

INTENDED INTERACTIONS

1. Save title/content and explicit sharing scope; show Saved with editor and timestamp.

2. Attach opens S23; Create task opens S24. Unsaved edits prompt Save or Discard.

3. Concurrent edits show a version conflict and preserve the draft for comparison.

PAGE PURPOSE / STATE

The note is a shared reference with durable task links. Permission changes show affected readers before confirmation.

Selected note

Cleaning instructions

Find an existing task

Kitchen reset - Priya; weekly [v]

Link scope

(o) Entire recurring series

() One occurrence: Sep 7, 8 PM

Choose one scope.

Access check

Task readers: Priya + Rohan

Note readers: Priya + Rohan

No sharing changes required.

Cancel

Attach note / open existing link

INTENDED INTERACTIONS

1. The note is already selected. Choose a task, then choose the series or one occurrence.

2. Attach creates the task link and a note backlink. An existing link opens the task instead of duplicating it.

3. If the assignee cannot read the note, review sharing explicitly or cancel. Never auto-share.

PAGE PURPOSE / STATE

This picker starts from S22 and selects a task. Starting from a task instead uses S23N to select a note.

Current task: Kitchen reset | Priya | Weekly series

Search readable notes

Cleaning [search]

Note	Readers	Selection
Cleaning instructions	Priya + Rohan	Already linked
Cleaning supply locations	Priya + Rohan	(o) Select note
Private cleaning reminders	Priya only	() Select; review task access

Selected note: Cleaning supply locations. Priya can read it. Sharing remains unchanged.

Cancel

Attach selected note

INTENDED INTERACTIONS

1. The task is fixed. Search readable notes, select one, and review the note's sharing scope.

2. Confirm access for the responsible member. An attachment does not add new readers.

3. Attach returns to S07N with the selected note. Cancel leaves existing links unchanged.

PAGE PURPOSE / STATE

This is the task-to-note direction. It differs from S23, which starts with a note and chooses a task.

S07N | Task detail with shared notes

Due / recurrence

Today 8 PM / weekly

Linked note | Cleaning instructions

Wipe counters with mild cleaner. Use a separate cloth for the floor.
Readers: Priya + Rohan | Last edited: Priya, today 9 AM
Linked to the recurring series; remains available after task completion.

Open note

Attach another note

Start task

Report completed

INTENDED INTERACTIONS

1. Open note returns to S22. Attach another note opens the note picker S23N with this task selected.

2. Start changes progress only. Report completed confirms this occurrence and preserves the recurring task.

3. If access is revoked, display Note unavailable without exposing its title or contents.

PAGE PURPOSE / STATE

Bidirectional links connect tasks and reusable instructions. Maintenance tasks use the same owner, recurrence, due date, and reported-completion pattern.

From: Cleaning instructions (saved version 3)

New task title

Check detergent before weekly cleaning

Proposed responsible member

Rohan [v]

Due / recurrence

Sep 8, 7 PM / once

Link and access

[x] Link original note to this task (do not copy content).

Rohan can read Cleaning instructions. Note sharing will remain Priya + Rohan.

Cancel

Create task and send offer

After save: Task created + note linked | Responsibility: Offered | Work: Not started

INTENDED INTERACTIONS

1. Priya explicitly creates the task and sends the reviewed offer; the note gets a backlink.

2. Rohan must personally accept. Priya sees Waiting for Rohan on the saved task.

3. Failed creation preserves the draft and does not add a dangling note link.

PAGE PURPOSE / STATE

Second direction: a saved note creates a new task. Creation and linking succeed together; assignment acceptance remains separate.

Return deadline - Priya confirmed

Friday, Sep 11, 5 PM

Linked note / source

Return instructions [Open] | retailer notice

Milestone	Current status	Record an update
Delivery / collection	Delivered Sep 4; collected by Priya	View source / correct report
Return authorization	Arranged outside Hestia; instructions saved	Record revised instructions
Return drop-off	Not started; due Sep 11, 5 PM	Report drop-off
Refund	Not reported received	Record refund received

Back to tasks

Report return drop-off

INTENDED INTERACTIONS

1. Open this record from Tasks. Add a notice or manual delivery / return fact, then confirm extracted fields.

2. Reporting drop-off updates that task only. Record refund receipt separately with date and evidence.

3. A changed deadline or responsible adult reopens review. Hestia neither initiates a return nor requests a refund.

PAGE PURPOSE / STATE

Track a parcel and its return through separate milestones. Priya already arranged the return outside Hestia. Completing drop-off does not imply a refund.

Design rationale | Structure and interaction

Gestalt proximity and similarity

Receipt evidence sits beside editable fields in S18R. Stock reports and timing estimates occupy separate cards in S16. Consistent navigation and controls make related actions recognizable.

Cognitive load and Hick's Law

S03 presents one urgent decision and concise summaries. S11 separates missing facts from the ready-to-approve state in S11B. Users review one current state rather than comparing incompatible controls on the same screen.

Norman's constraints and signifiers

Unavailable approval is explicitly labeled when facts are missing. Actor-specific controls distinguish Priya's oversight from Rohan's personal response. The two note pickers identify whether the user is selecting a task or a note.

Nielsen's visibility, control, and recovery

S13 shows a failed internal save without hiding successful steps. S18D confirms a saved receipt separately. Cancel, Dismiss, Undo, Unlink, and focused retries make consequences and recovery understandable.

Fitts's Law and accessibility

Use consistent, reachable controls close to affected content. During implementation, provide targets of at least 44 CSS pixels, keyboard access, visible focus, labeled inputs, and announced status changes. Narrow layouts will stack evidence before controls and convert tables to labeled cards.

Iteration and scope | What the prototype demonstrates

Iteration from the earlier draft

The revised design balances responsibilities, supplies, and shared notes. It clarifies Aarav's on-site care, shows Rohan's own acceptance controls, separates responsibility from progress, and demonstrates receipt correction and bidirectional note links.

Changes following rubric review

Alternative states now have separate pages. The note-to-task and task-to-note pickers are distinct. A parcel/return example extends the task flow. Retailer confirmation is a user report, and a failed internal calendar save can be retried independently.

Core features and their screens

Workspace and capture: S01-S02, S17-S18. Plans and deadlines: S04-S13R, S19-S20. Supplies, purchase patterns, and tracked spending: S15-S18D. Cleaning and maintenance: S06 and the reusable S07N task form. Shared notes: S21-S24. Parcels and returns: S25. The personal brief appears on S03.

Semester boundary

Use the internal Hestia calendar, uploaded or forwarded sources, explicit source correction, manual availability, and user-reported outcomes. Retailer services are used outside Hestia; a person records any confirmation and supporting evidence.

Future extensions

Live external calendar synchronization, automated retailer booking, ordering, broader expense analysis, meal planning, and office-specific workflows are possible later extensions. The present submission defines the idea and interactions; implementation belongs to later course stages.

Usability exercise | Evaluate representative journeys

1 / Coordinate responsibility

Ask Priya to resolve an afternoon pickup problem using the notice and household information. Observe whether she distinguishes event end from pickup and can explain the proposed grocery change. Ask Rohan to respond to each offer. Test an unanswered or declined offer as a separate scenario.

2 / Correct a receipt and review supplies

Ask a participant to record purchases from the sample receipt and handle the unclear milk price. Keep the expected \$22.46 total in the facilitator guide, not the task prompt. Observe correction, saving, understanding of unknown stock, and the decision to add or dismiss a suggestion.

3 / Share instructions through a task

Ask a participant to share cleaning instructions, link them to an existing task, and create a related task from the note. Test attaching a second note from task detail. Check understanding of readers, personal acceptance, and revoked access.

4 / Follow a return and a routine

Ask a participant to find the return deadline, report a drop-off, and identify the still-pending refund. Use a maintenance occurrence to check whether completion preserves the recurring schedule. No retailer action is performed by Hestia.

Record observations and revise

Record task success, recovery without help, time, and misclicks. Ask users to name the next actor and action, and distinguish approval, commitment, completion, stock observation, and external confirmation. Test failed internal saves and preserve user drafts. These are planned exercises; no user-test results are claimed.
